

MAGNA STITCHER

Plastic Repair Kit for Stud Welders

USE YOUR STUDWELDER FOR PLASTIC REPAIR!

Provides an economical solution for plastic repair by turning your stud welder into a plastic repair tool. The Magna Stitcher™ fits all popular stud welders and provides all the features of a plastic repair system at a fraction of the cost!

The MS-1 works by welding a rigid stainless steel stake into the surface of the plastic resulting in a permanent repair of the crack. Repairs can be made on flat surfaces, tabs, holes, ribs, inside and outside corners. Once the back of the broken part is stitched, the cosmetic repair and refinishing can be completed on the outside of the part. This economical attachment can also be used for quick, on-the-vehicle repairs such as mounting tabs underbody components and other out-of-sight components. Simply stitch and go!

Kit Includes;

- 1 Magna Stitcher Adapter
- 25 "S" Shaped Stakes for Flat Surface Repair
- 25 "M" Shaped Stakes for Tabs & Narrow Sections
- 25 "V" Shaped Stakes for Inside Corner Repair
- 25 "W" Shaped Stakes for Outside Corner Repair
- 1 Handy & Durable Storage Case

No. MS-1-KIT - REGULAR - \$129.95

BEN'S BETTER BUY - \$109.95!
